- To have information about each student's unique needs and strengths.
- To make the parents aware to be active partners in learning process of their children.
- To work along with the parents to establish realistic and achievable objectives,

On that day, we discussed on several topics regarding the academic progress of all the students of Semester I & Semester III like the results of their previous semester, attendance record, maintenance of discipline and participation in the extracurricular activities.

All the guardians of our students proved to be very cooperative and they also provided useful suggestions for future progress. Our meeting was successful in promoting awareness among guardians as well as students.
